

5th Annual  
**Renewable Energy Conference 2010**  
"Powering Investments"

April 27 & 28, 2010  
Halifax, Nova Scotia  
Westin Nova Scotian Hotel

## 2010 Conference Agenda

### Tuesday, April 27th

5:00 - 8:00 am: **Exhibits Set-up in Market Café**

7:30 - 9:00 am: **Registration**

8:00 - 9:00 am: **Exhibits Open in Market Café**

9:00 - 9:25 am: **Keynote Opening Address**

#### **The Gateway "Energy" Corridor to the US**

Great potential exists for the development of an Atlantic Energy Corridor for renewables. We have the supply but now we need to embrace a fully integrated plan which involves all Atlantic provinces and northeastern states. This will ensure both production and distribution of our excess renewable resources will reach the northeast US where the demand will remain high and the price will attract investment and development into this region.

9:30 - 10:30 am: **Panel Presentation**

#### **The "Next Generation" Solar**

This session focuses on the implementation of solar as a viable renewable energy for power generation. This region has one of the best light regimes for the deployment of solar heat and power. Examples from other jurisdictions will highlight the need for a lucrative pricing structure to attract investment into this region.

10:30 - 11:00 am: **Refreshment/Nutrition Break in Market Café**

11:00 - 12:00 pm: **Panel Presentation**

#### **Biomass & Bioenergy- Fuel for Today!**

This session focuses on today's leading edge technology for biomass and bioenergy. Where are we in the race to find the most efficient and sustainable form of bioenergy as we learn to incorporate the new sources as part of power generation. Also come and learn of the state of the art equipment, developed to incorporate all forms of fuels.

12:00 - 1:00 pm: **Keynote Luncheon**  
**"The Bottom Line"**  
**New Brunswick Power's Deal with Quebec Hydro**

1:30 - 2:30 pm: **Panel Presentation**  
**"The Catalysts" for Wind Projects**  
This session will discuss the catalysts required for wind projects to move forward in this region. Net metering, investment, new strategies and infrastructure are some of the key issues to ensuring a lucrative landscape for wind developers and their investors. What's new in wind development policy and its implications for future development of wind power in the region.

2:30 - 3:00 pm: **Refreshment/Nutrition Break in Market Café**

3:00 - 4:30 pm: **Panel Presentation**  
**"W5" on Feed-In Tariffs & Storage Options**  
The who, what, where, when and why on storage options and how other jurisdictions, including Ontario with feed-in tariff systems have forged ahead adding thousands of megawatts of power since the introduction of feed-in tariffs. Additionally, the long anticipated report commissioned by the NS Department of Energy is likely to address the value of feed-in tariffs as a key driver to ramp up the renewable energy industry in this region. And hear of how storage applications can be a viable alternative to developers and utilities.

4:30 - 6:30 pm: **RECEPTION**  
**Conference Reception in Market Café** (Appetizers & Cash Bar)

### **Wednesday, April 28th**

7:30 - 8:30 am: **Keynote Breakfast Speaker**

9:00 - 10:00 am: **Panel Presentation**  
**Tidal Project Review**  
This session's tidal experts will elaborate on the progress of the tidal and wave energy initiatives in the Bay of Fundy. We will hear first hand how the first prototype, installed in late 2009 survived the winter of the harsh Minas Basin waters and details of the next test phase along with an update on other tidal initiatives.

10:00 - 10:30 am: **Refreshment/Nutrition Break in Market Café**

10:30 - 12:00 pm: **Panel Presentation**  
**The "Power Den"**  
This intriguing session introduces upcoming renewable energy technologies and projects to be pitched to our panel of investment experts in hopes of securing an investment partner.

12:00 - 1:30 pm: **Luncheon Keynote Address**  
**"Powering Up" Lower Churchill Falls**

Our keynote luncheon speaker addresses the infrastructure requirements and options for distributing economical and sustainable power from Newfoundland & Labrador's Lower Churchill Falls project. Our keynote guest will speak to the latest agreements and deliver their best understanding of landfall options and project timelines of this region's incredible resource.

1:30 - 2:00 pm:

**Closing Remarks followed by  
Refreshment/Nutrition Break in Market Café**

## 2010 Conference Partner Opportunities!

<b>Benefits</b>	<b>Diamond</b>	<b>Gold</b>	<b>Silver</b>	<b>Bronze</b>
Complimentary conference registrations	Three	Two	One	None
Exposure as Major Partner(s)	*			
Sponsor of a panel session	*	*		
Exposure on promotional material	*	*	*	*
Hyperlink to your corporate website	*	*	*	*
Your on-site banner	*	*	*	*
Market Cafe Exhibit (10' x 6' exhibit)	*	*	*	
Post-conference email letter	*			
<b>Investment</b>	<b>\$3,950</b>	<b>\$2,750</b>	<b>\$1,250</b>	<b>\$595</b>

## Special Event Sponsorships!

<b>Special Conference Events</b>	<b>Investment</b>
Luncheon- noon day 1	\$2,500
Refreshment Break- afternoon day 1	\$595
Reception- evening day 1	\$3,000
Breakfast- morning day 2	\$2,000
Refreshment Break- mid-morning day 2	\$595
Luncheon- noon day 2	\$2,500
Refreshment Break- afternoon day 2	\$595

## **April 27 & 28th, 2010 - 5th Annual Renewable Energy Conference 2010 "Powering Investments" Westin NS Hotel**

The 5th Annual Renewable Energy Conference is the #1 renewable energy event in Canada. This year's event will host producers, manufacturers, suppliers, large energy consumers, investors & lenders, municipalities, and governments as they discuss the emerging opportunities for wind, tidal, bioenergy, solar, geothermal projects, feed-in-tariffs, Newfoundland's Lower Churchill Falls' project and Quebec Hydro's merger with New Brunswick Power!

A top-notch line-up of industry leaders share their expertise on industry issues, including:

### **Keynote Presentations**

- Gateway Energy Corridor to the US
- The Move Towards Feed-In Tariffs
- Upgrading the Grid for Lower Churchill Falls
- The Bottom Line to Atlantic Canada- New Brunswick Power's Deal with Quebec Hydro

### **Panel Presentations**

- Tidal Project Review- Bay of Fundy Projects!
- Subsea Power Line to US?
- "Coming of Age"- Geothermal Applications
- Making Storage Feasible for Renewables!
- "The Next Generation"- Solar & Photovoltaics Energy
- Biomass & Bioenergy- Fuel for Today!
- Carbon Credit "Business Case"
- NEW: "Power Den"- Pitching a panel of investors on new projects!

### **Networking Opportunities**

- The "Market Café" centered among the exhibit showcases offers delegates the opportunity to do business in a Buyers & Sellers atmosphere during refreshment breaks and throughout the two-day conference.
- Keynote Luncheons on April 27<sup>th</sup> & April 28<sup>th</sup>
- Keynote Breakfast on April 28<sup>th</sup>
- Evening Reception on April 27<sup>th</sup>

ESANS' members receive a \$100 E-credit when registering on-line.

For more information or to register please visit [Energyevent.ca](http://Energyevent.ca) or contact Shera-Lee Kerr at (902) 576-5383 or [sheralee@energyconsultant.ca](mailto:sheralee@energyconsultant.ca).
